

I wish to keep the K-Love radio signal as it is and not move it to LPFM. I appreciate having the option to listen to Christian music that is family based and supports /encourages wholesome values. I can best explain why I believe K-Love benefits all communities it's available in by this statement, if our society practiced the values K-Love express would we as a whole be better off? I believe it would be. Thank you for your time. cj
